

Improve Your Putting Today!

BigLite 1 Super Jumbo Putter Grip

Serious about improving your putting?

The new BigLite super jumbo putter grip helps keep your wrists "quiet" and promotes a pendulum stroke. Other large putter grips weigh between 180 and 230 grams. At only 85 grams, the BigLite weighs about the same as your regular-size putter grip (usually 60 to 80 grams). BigLite is the only large putter grip that will not change the swing-weight of your putter.

Specifications:

Core:	0.600
Weight:	85 grams (+- 5 g)
Length:	10.25" (265 mm)
Outside diameter:	1.7" (43 mm)

Now there are more choices!

BigLite 2 Super Jumbo Putter Grip

The BigLite 2 is a smaller version of the original BigLite super jumbo putter grip. The BigLite 2 is 1.5" in diameter - the original BigLite, in comparison, is 1.7" in diameter. The BigLite 2 is ideal for golfers with smaller hands or for those who want all the advantages of the original BigLite in a slightly smaller package.

Specifications:

Core:	0.600
Weight:	80 grams (+- 5 g)
Length:	10.25" (265 mm)
Diameter:	1.5" (38 mm)

A King-Sized Classic!

BigLite 3 Super Jumbo Pistol Grip

The BigLite 3 is an expanded version of the most popular style of putter grip of all time – the pistol grip. We have taken the classic pistol grip and expanded it to the largest USGA-allowable dimensions. The BigLite 3 is twice the size of a standard pistol grip, yet weighs exactly the same. This gives golfers the benefits of a more stable stroke while maintaining the swing-weight and overall weight of the putter. A must-try!

Specifications:

Core:	0.600
Weight:	70 grams (+/- 5 g)
Length:	10.25" (265 mm)

The #1 Shock-absorbing grip in golf!

BigLite Super Jumbo iron Grip

F

or golfers suffering from golf-related injuries, shock and vibration at impact have always been problematic. Many grips in the past have claimed to eliminate shock, but no grip has ever worked quite as well as the BigLite grip. The BigLite iron grips are made of a proprietary foam material which contains millions of microscopic air bubbles which help to dissipate shock and vibration like nothing else. The result is an amazingly comfortable grip to play golf with. If pain has been a part of your golfing experience, try the BigLite LW grips and hurt no more!

Specifications:

Core:	0.600
Weight:	50 grams (+ 5 g)
Length:	10.25" (265 mm)
Diameter:	1.15" (29 mm)
